-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is in response to applicant's amendment received on May 5th, 2008.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Eriksson (5,516,025) for the same reasons set forth in paragraph 5 of the previous office action mailed February 4th, 2008.

Response to Arguments

4. Applicant's arguments filed May 5th, 2008 have been fully considered but they are not persuasive.

Applicant contends that since the bending devices, stop lugs, and spring are all integral with or mounted to the block, then the bending devices and stop lugs can not possibly block any downward movement of the block. However, it should be noted that the elastic element 16 is the lower part and that it can move relative to the upper part 12 as seen in Fig. 8. When the lower part 16 is in the initial position, the lower and upper parts are apart. The lower part cannot move relative to the upper part due to the configurations of the bending devices 4 and the latches 14. Only upon actuation of the

releasing legs 7' do the bending devices pivot, thus moving the lower part relative to the upper part. Note that since the lower part moves relative to the upper part (Fig. 8), the upper part moves relative to the lower part.

For the reasons above the grounds of rejection are deemed proper.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
6. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **LINDSAY M. LOW** whose telephone number is (571)272-1196. The examiner can normally be reached on **Monday thru Friday 7:30 to 5:00**.
